

# 10회, 총리와 나(Prime Minister and I)

## ◆ 표현(Expression) 1

이거 저 주려고 사신 거 맞죠?

You bought this for me, right?

This expression is used in the drama when the main female character discovers the present by chance, and verifies to see if the other person bought the present for her. '-ㄴ 거 맞죠?' is an interrogative statement, but it is not asking because one doesn't know, it is used when one wants to verify what they already know is true.
